WHY DO I NEED CONDO UNIT INSURANCE?

The obligations to provide insurance, on the part of the Condominium Corporation and on the part of the individual unit owner, can be quite different depending on the building and the standard unit as defined.

There is an increasing complexity of condominium insurance issues and financial obligations unit owners may have to the corporation in the event of an insurable loss. Not only is it very important for unit owners to obtain proper coverage to protect their own personal assets and personal liabilities, it is also vital to protect themselves from the financial loss they may be obligated to pay to the Condominium Corporation in an insurable loss situation.

Atrens-Counsel recognizes that every unit owner may have individual insurance needs. Let an Atrens-Counsel insurance expert tailor your unit owner's policy under the Condo Gold Proposition with one of the market-leading Insurers in condominiums.

Let the Condo Gold Proposition provide you with the options and coverage specific to your needs.
